DID YOU KNOW?

Wales has some of the most amazing geology in Europe, with many different types of rocks and minerals found beneath its hills. This led to the rise in industries built around coal mining, lead and zinc mining, slate quarrying and copper smelting.

Thanks to its rich geological heritage, Wales is also home to two GeoParks, as well as museums, adventure parks and tourism built around former industrial sites.

WHAT CAN YOU DO?

What are your favourite natural features in nature?

How have industry or natural resources shaped the landscape in your local region?

SHARE YOUR EXPERIENCE

Feed into the nationwide conversation about outdoor experiences. Scan the QR code to share your experience on the **Green Space Stories** website or use **#GreenSpaceDarkSkies** on social media.

BECOME A LUMENATOR

Green Space Dark Skies invites you to join thousands of people, from all paths in life, to experience beautiful landscapes across the UK.

Anyone is welcome to sign up to this series of mass gatherings, which celebrate nature, our responsibility to protect it and everyone's right to explore the countryside.

Part of the UK-wide UNBOXED: Creativity in the UK festival in 2022, this project is led by outdoor arts experts Walk the Plank.
