WHY DOES YOUR CARBON FOOTPRINT MATTER?

If we all strive to be eco-conscious in our daily lives, we can make steps to ensure that the landscapes we love will be around for future generations to enjoy.

A carbon footprint is a measure of the impact your individual activities have on global warming, from how far your food has flown, to how you travel day-to-day. Carbon Footprint Calculating is quick and easy to do, and it can help us strive to be more eco-friendly.

WHAT CAN YOU DO?

How can we reduce our carbon footprint to have a positive effect on the world?

Work out your carbon footprint [here](https://footprint.wwf.org.uk/) and see how you could help the planet even more.

SHARE YOUR EXPERIENCE

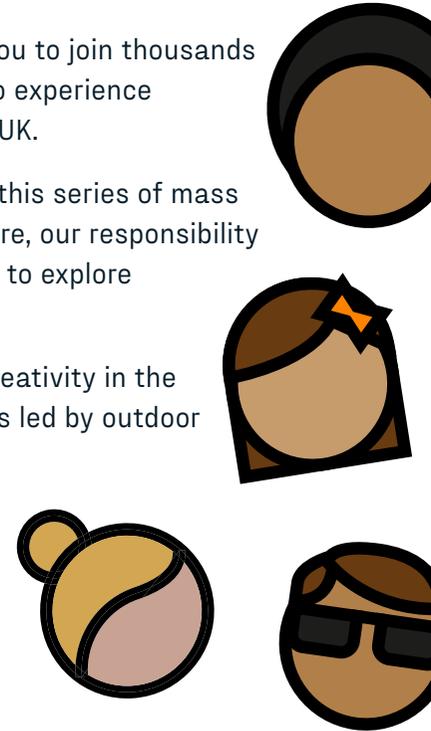

Feed into the nationwide conversation about outdoor experiences. Scan the QR code to share your experience on the **Green Space Stories** website or use **#GreenSpaceDarkSkies** on social media.

BECOME A LUMENATOR

Green Space Dark Skies invites you to join thousands of people, from all paths in life, to experience beautiful landscapes across the UK.

Anyone is welcome to sign up to this series of mass gatherings, which celebrate nature, our responsibility to protect it and everyone's right to explore the countryside.

Part of the UK-wide UNBOXED: Creativity in the UK festival in 2022, this project is led by outdoor arts experts Walk the Plank.
